About the Company

Mahsumaah Business is a technology and consulting firm focused on secure digital transformation. We build modern IT solutions that combine software, cloud, AI, and cybersecurity to help organizations operate efficiently and securely.

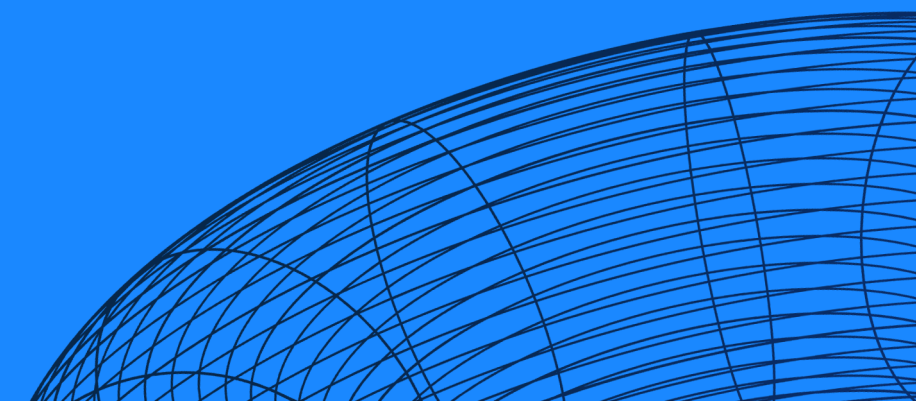

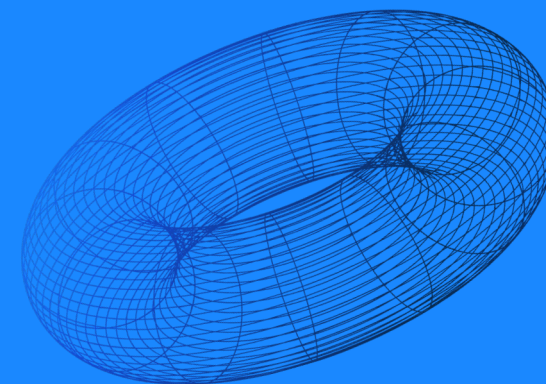

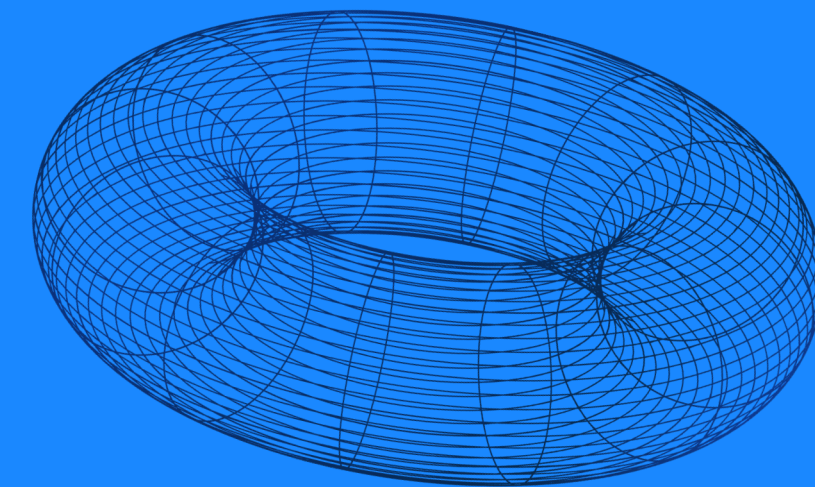

MISSION

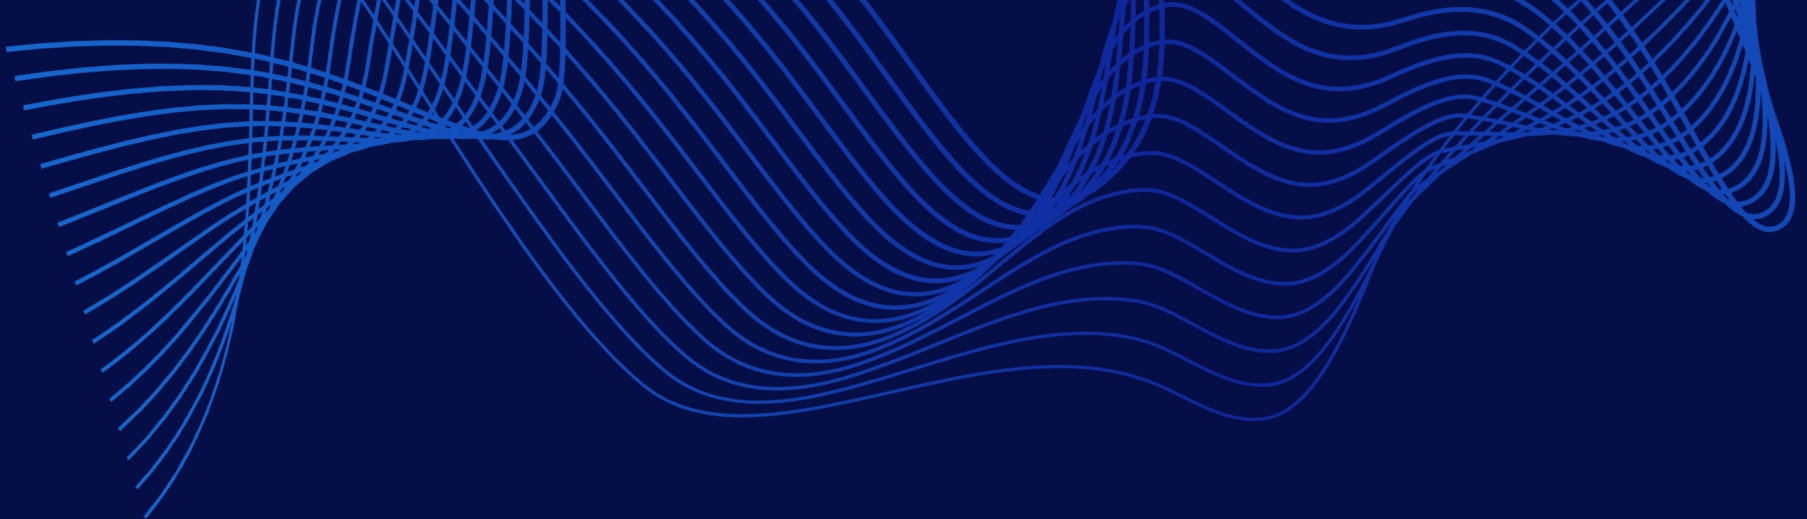

To deliver secure, scalable technology solutions that help organizations transform digitally with confidence and compliance.

VISION

To become a trusted leader in secure digital transformation, enabling resilient and intelligent technology ecosystems.

Our Mission and Vision

IT Consulting Services

Digital transformation strategy

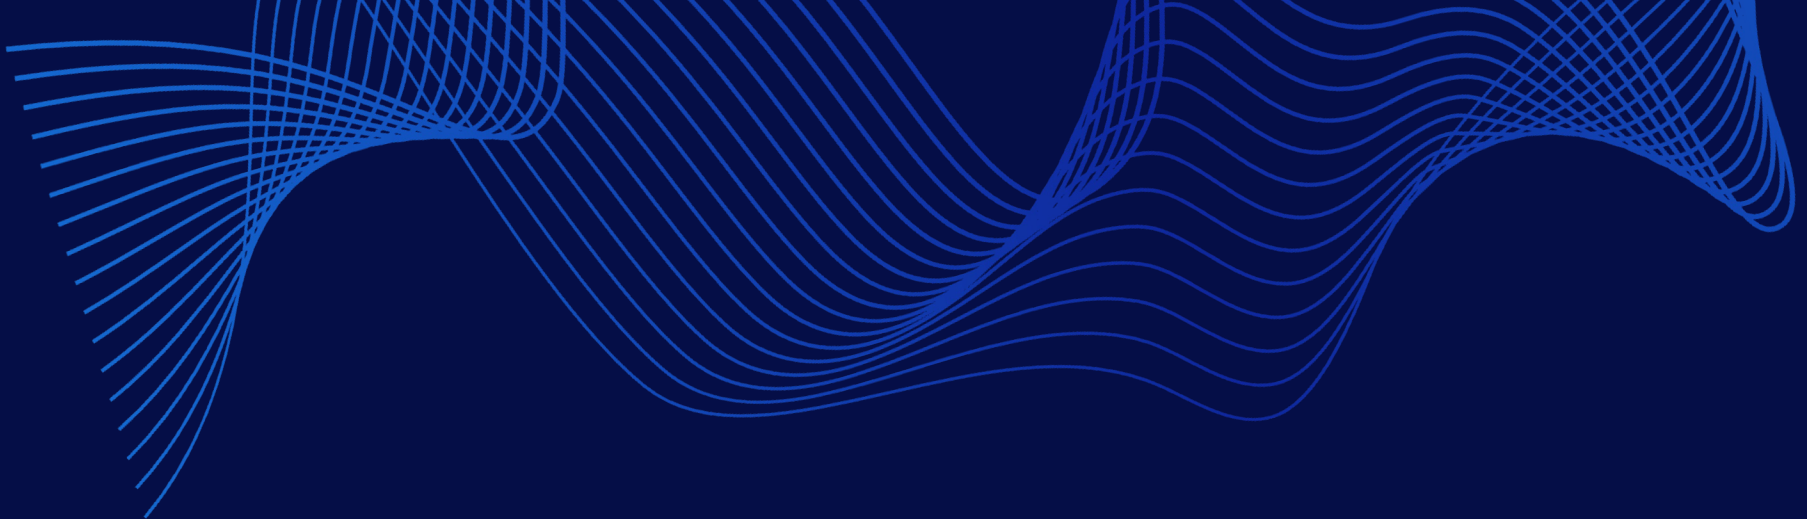

IT infrastructure consulting

Cloud consulting

IT governance

Business continuity & disaster recovery

Cybersecurity Consulting Services

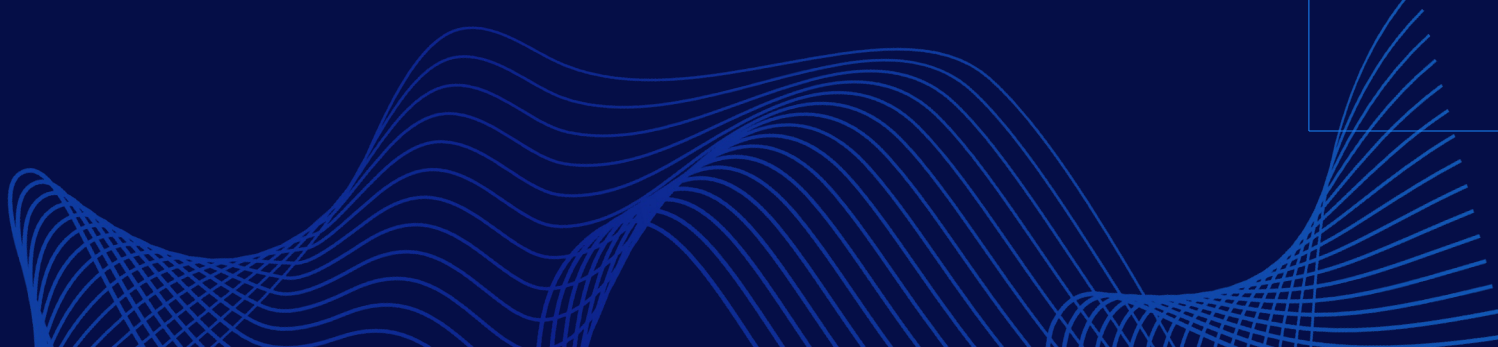

Risk assessment

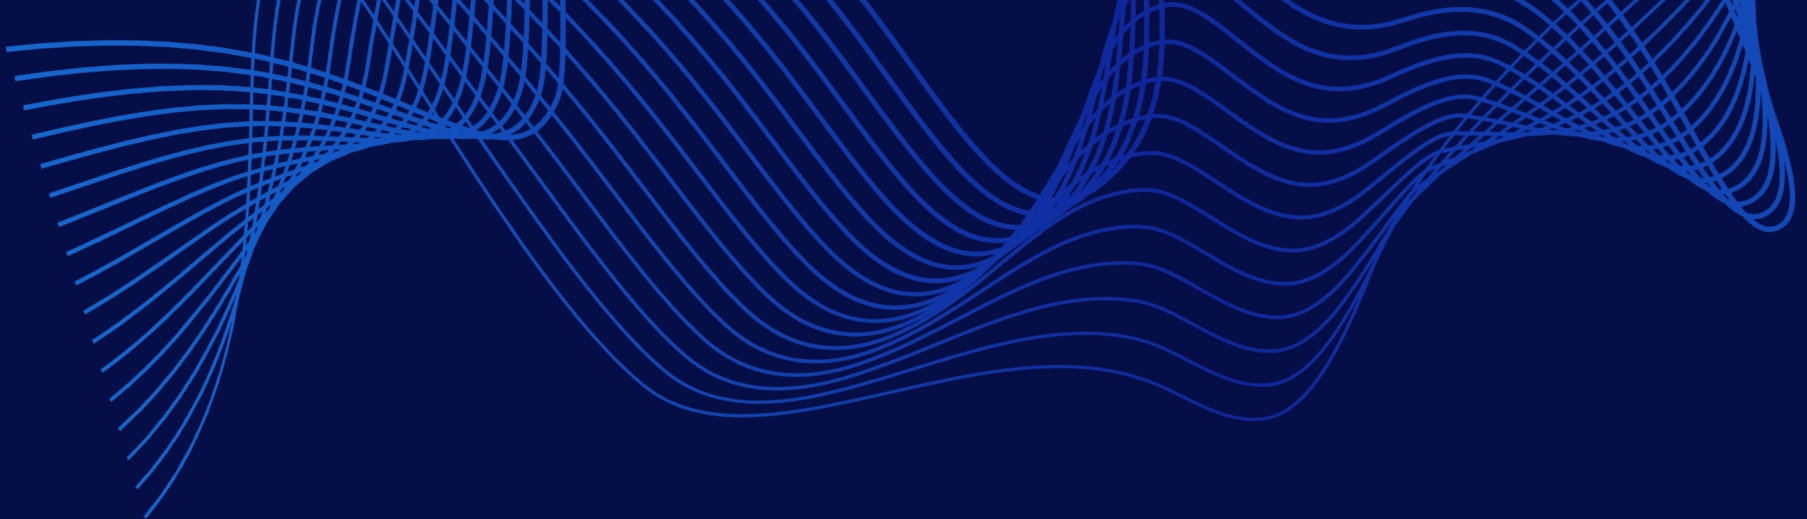

Security audits

Threat monitoring

Identity and access management

Compliance frameworks

Application Development & Software Solutions

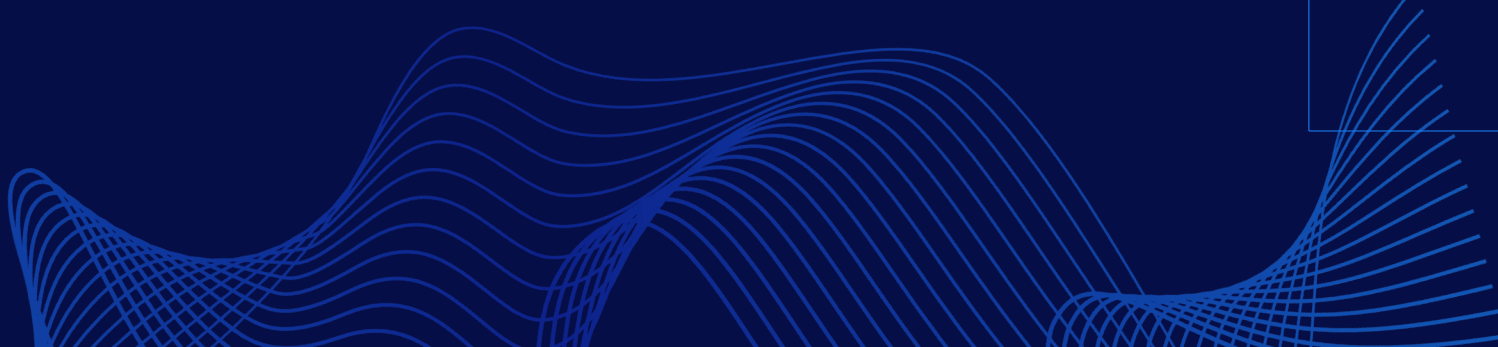

Custom software development

SaaS platforms

Web & mobile apps

Enterprise systems

DevOps & cloud deployment

AI Capability Segments

Enabling organizations to adopt AI with clarity, security,
and measurable business impact.

AI Centre of Excellence

A strategic framework to identify, prioritize, and scale high-value AI initiatives.

Agentic AI

Task-driven AI agents that automate workflows, support decisions, and execute business processes.

Generative AI

Enterprise AI assistants that generate insights, summaries, responses, and knowledge-based outputs.

On-Prem Deployment

Secure AI infrastructure models for organizations requiring data control, privacy, and compliance.

AI Governance

Policies, controls, and frameworks for responsible, secure, and accountable AI adoption.

01

MahsumaaH Moto is a digital platform designed to modernize motorcycle workshop operations.

2025

The system helps workshops manage service orders, inspections, inventory, and customer records through a centralized dashboard.

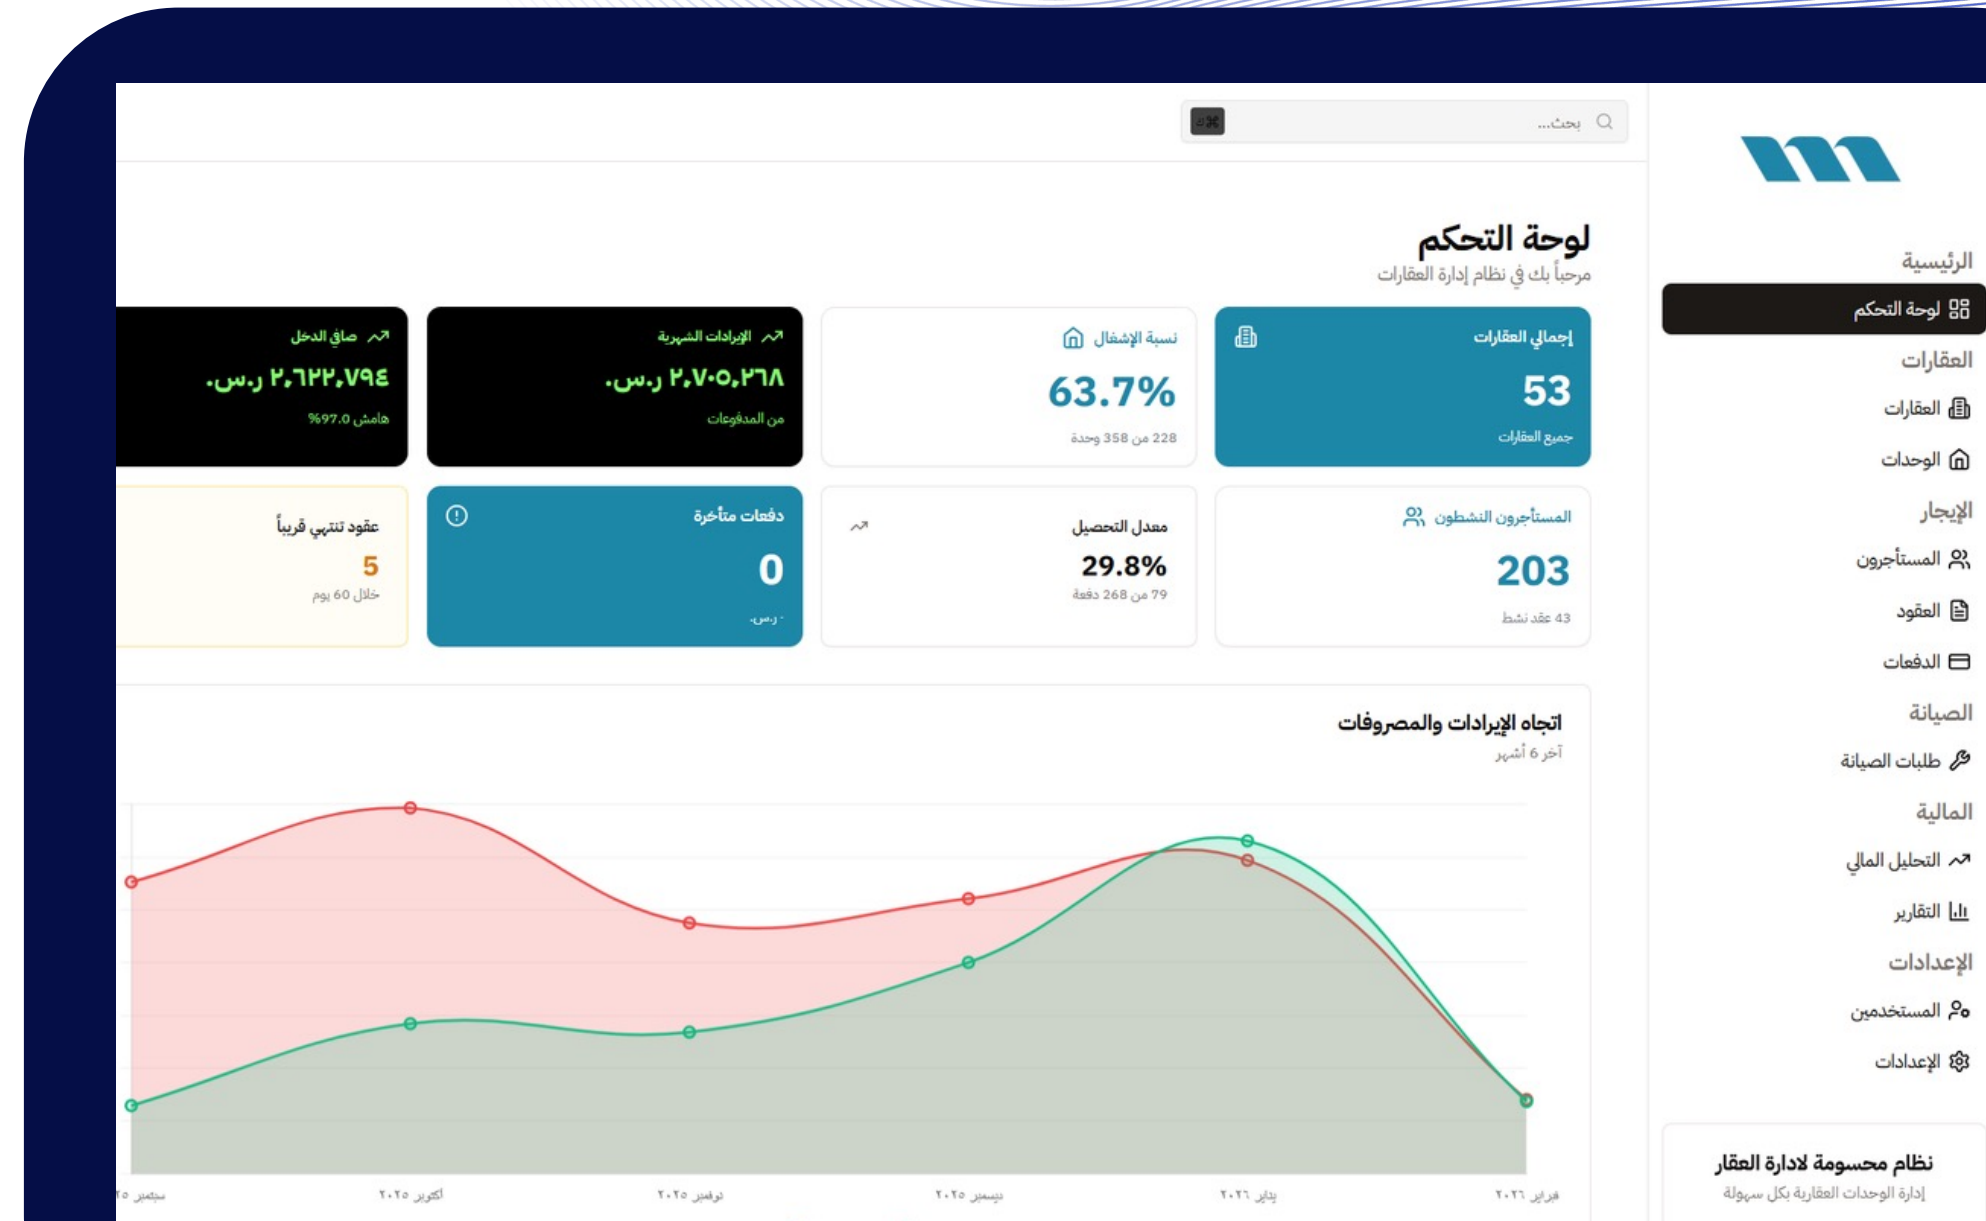

Aqar

02

Mahsumaah Aqar is a digital platform designed to simplify property management and real estate operations.

The system enables property owners and managers to manage properties, leases, tenants, and financial records through a centralized and secure dashboard.

2026

Board Meetings Management Platform

Manage Board Meetings with Efficiency and Professionalism

All-in-one platform for meetings, voting, decisions, and minutes —
in Arabic and English

Start Free

Watch Demo

03

2025

CCOS (Council & Committee Operating System) is an enterprise-grade governance solution built for boards, committees, federations, and executive leadership teams.

The platform streamlines meeting workflows, approvals, voting, decision tracking, digital signatures, document management, and executive reporting within a secure and fully integrated environment

10

Industries We Serve

GOVERNMENT & PUBLIC SECTOR

Supporting digital transformation initiatives, secure infrastructure, and compliance-driven technology solutions.

FINANCIAL SERVICES & ENTERPRISES

Providing secure IT systems, cloud solutions, and advanced cybersecurity for regulated industries.

TECHNOLOGY, LOGISTICS & SMART INFRASTRUCTURE

Developing scalable software platforms, AI-driven systems, and secure digital ecosystems for modern businesses.

Building the Future Together

In collaboration with

Core Capabilities

● AI & Machine Learning

AI strategy, use-case discovery, conversational banking, call-centre automation, document intelligence, predictive analytics

● Digital Transformation

End-to-end transformation roadmaps, regulatory-aligned AI governance (SAMA, PDPL, NCA), change management & adoption

● Enterprise Software Engineering

Legacy modernization, cloud migration, API integration, microservices architecture, and process automation

● UI/UX Design

Figma prototyping, dashboards, mobile interfaces, portals, and enterprise web applications

● FinTech Solutions

Capital markets platforms, digital banking, cross-selling advisory engines, portfolio management dashboards

● HealthTech Solutions

Remote Patient Monitoring, Telemedicine, EHR, EMS, Clinical decision support, hospital workflow automation, PoC development

MAKSUMAH
BUSINESS

AI Capabilities: PoCs & Centre of Excellence

PoCs We Have Built

- **Conversational Banking Assistant**
NLP-powered chatbot for account queries, transactions & support across mobile banking channels
- **Clinical Decision Support PoC**
AI-assisted triage and workflow automation for Saudi healthcare institutions
- **Document Intelligence Engine**
OCR, classification & intelligent extraction for back-office document processing in financial services
- **AI-Powered Investment Dashboard**
ML-driven portfolio insights and fund analytics — prototyped for Mefic Capital

AI Centre of Excellence (CoE)

We help organizations build internal AI readiness — not just technology, but the governance and culture to sustain it.

- **AI Policy & Ethics Frameworks**
Responsible AI charters, usage policies, bias mitigation guidelines and model governance standards
- **Regulatory Compliance Advisory**
Alignment with SAMA, PDPL, NCA (KSA), GDPR (EU) and sector-specific AI regulations
- **AI Governance Structures**
AI steering committees, model risk management workflows, and board-level reporting frameworks
- **Readiness Assessments & Roadmaps**
AI maturity benchmarking, gap analysis, and phased transformation roadmaps for enterprise teams

MAHSUMAH
BUSINESS

Technology Stack & Expertise

Backend & APIs

.NET Core 10 | Java / J2EE | Node.js | REST & GraphQL APIs
| Microservices

AI & Data

LLMs & Generative AI | NLP / Conversational AI | OCR &
Document Processing | Predictive Analytics | ML Pipelines

Frontend & UX

React / Angular | Figma Prototyping | Mobile-first Design |
Dashboard Engineering | UI/UX Strategy

Cloud & DevOps

Microsoft Azure | AWS | CI/CD Pipelines | Docker /
Kubernetes | Cloud Migration

MAHSUMAH
BUSINESS

Our Engagement Model

01

Discovery & Assessment

Business visit, stakeholder interviews, use-case mapping, feasibility study & regulatory review

02

Proposal & Design

PoC scoping, Technical Proposal, Financial Proposal, MSA drafting, and Figma-level prototyping

03

Delivery

Agile sprints, phased milestones, transparent reporting, phase-gate reviews, and QA cycles

04

Scale & Support

Post-go-live support, enhancement phases, ongoing consulting retainer, and AI governance advisory

All engagements are governed by a Master Services Agreement (MSA) with clearly defined SLAs, payment milestones, and scope boundaries.

MAHSUN
BUSINESS

Why Choose Us

● Regulatory Expertise

Hands-on knowledge of SAMA, PDPL, and NCA frameworks — critical for GCC financial and health sector deployments

● Domain + Tech Fusion

Rare combination of industry domain consultants and engineering teams, eliminating the gap between strategy and execution

● Full Lifecycle Partner

From PoC and proposal to MSA, delivery, and post-launch advisory, we are with clients every step of the way

● Proven Delivery Model

Structured two-phase approach: Phase 1 as-is replication for risk-free migration, Phase 2 for enhancements and innovation

● GCC Market Presence

Established relationships with major Saudi banks, hospitals, and investment firms; active business development in Riyadh and UAE

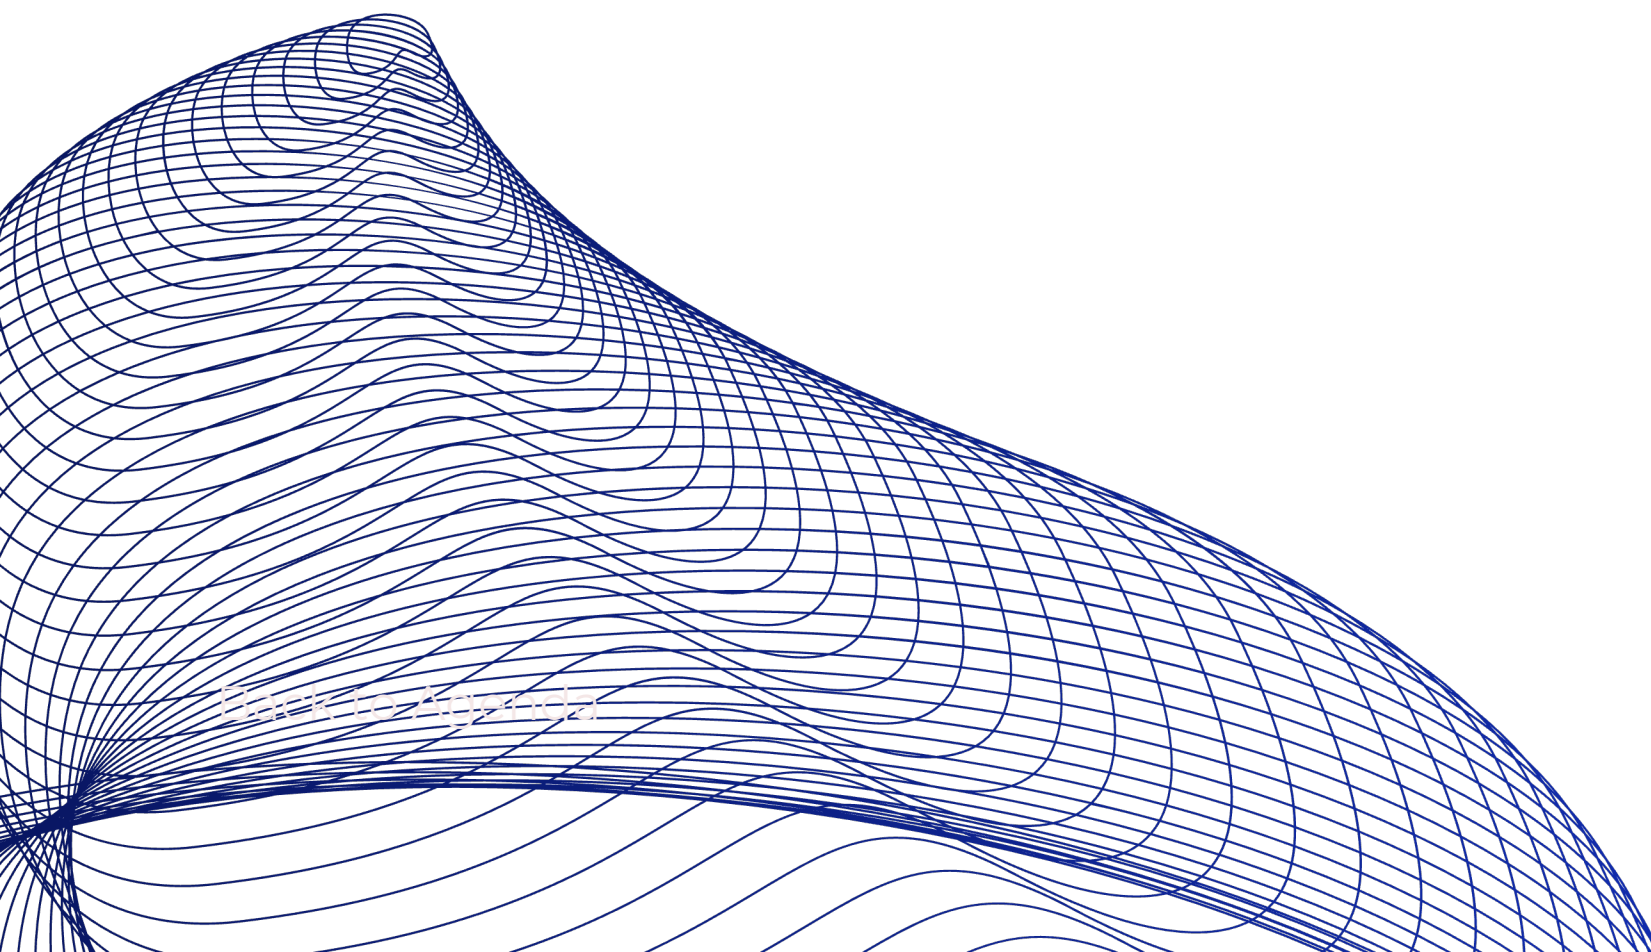

● Flexible Commercials

Milestone-based payment structures, transparent financial proposals, and clear SOW boundaries that protect both parties

Why Choose Us

We combine deep technical expertise with a strong focus on security, compliance, and scalable digital solutions to help organizations transform with confidence.

01

Regulation-First Approach

Our solutions are designed to meet strict regulatory standards, ensuring security, compliance, and long-term operational stability.

02

Scalable & Secure Solutions

Our platforms are built for reliability, scalability, and performance, supporting organizations as they grow and evolve.

03

Trusted Strategic Partner

We work closely with our clients to deliver tailored solutions that create measurable business impact.

National Alignment

Supporting the Kingdom's strategy to build a diversified, technology-driven economy through digital transformation and innovation.

Ensuring systems follow national cybersecurity controls, data protection standards, and secure infrastructure practices.

Contributing to the adoption of artificial intelligence, automation, and advanced software platforms across industries.

Vision 2030

**National Cybersecurity
Authority (NCA)**

**AI & Digital Economy
Initiative**
