About the Company

Mahsumaah Business is a technology and consulting firm focused on secure digital transformation. We build modern IT solutions that combine software, cloud, AI, and cybersecurity to help organizations operate efficiently and securely.

MISSION

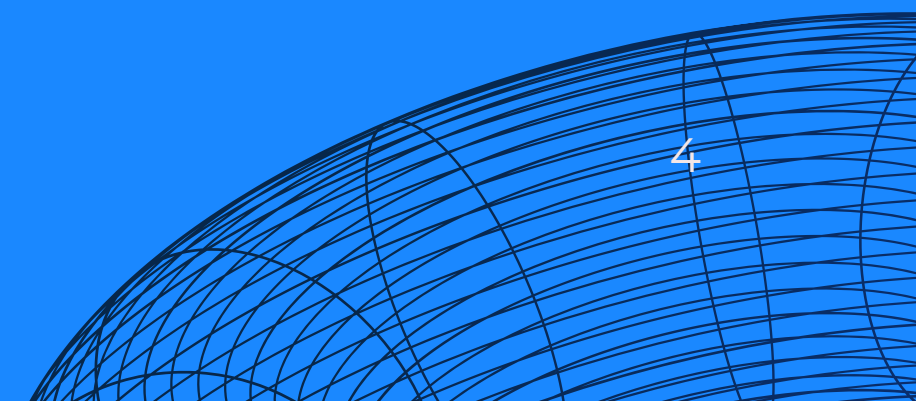

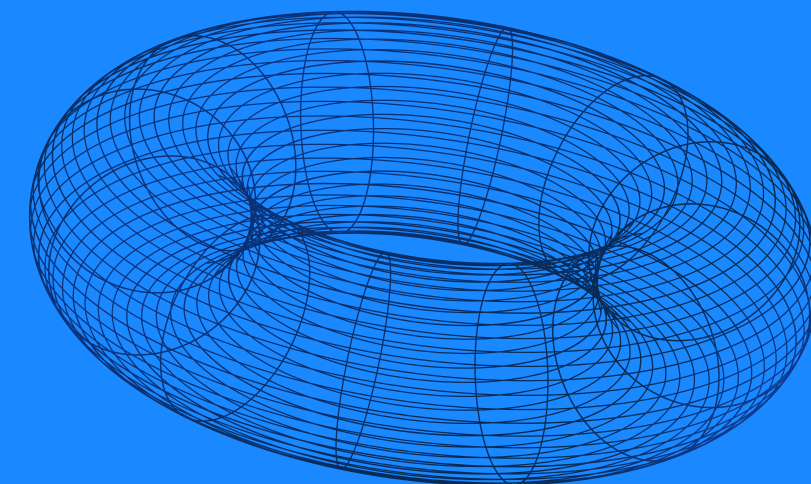

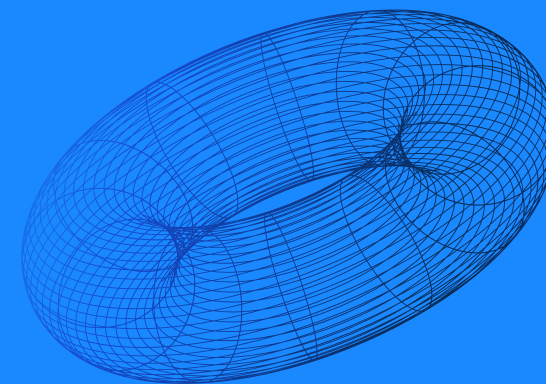

To deliver secure, scalable technology solutions that help organizations transform digitally with confidence and compliance.

Our Mission and Vision

VISION

To become a trusted leader in secure digital transformation, enabling resilient and intelligent technology ecosystems.

FINTECH PRODUCTS in collaboration with DigiTrends

AI Centre of Excellence

In the era of AI, where strategic adoption defines the competitive edge for Saudi financial institutions, it is clear that AI is no longer optional. Yet many leaders remain uncertain on how to adopt it effectively.

Our AI Centre of Excellence (CoE) is a consulting-led solution that helps organizations discover, validate, and scale AI initiatives in a structured and measurable way. It is designed to give leadership and teams confidence in AI adoption, from concept to production.

How It Works

Consultancy Workshops: Leadership and department teams collaborate to identify opportunity areas and prioritize high-value AI use cases

AI Sandbox: Use cases are implemented in a controlled environment using internal data, allowing clients to test AI solutions and validate practical impact before scaling

Production Rollout: Successful use cases move into live production, ensuring measurable outcomes and operational integration

Benefits for Organizations

Clarifies AI opportunities aligned with business goals

Demonstrates tangible value to leadership and stakeholders

Reduces risk by testing solutions before full deployment

Accelerates digital transformation while maintaining control and governance

Client ExperienceAI

AI solutions designed to elevate investor engagement and deliver personalized financial experiences.

By combining personalization, proactive insights, and secure integrations with core investment systems, these solutions strengthen investor confidence while reducing operational friction for financial institutions.

1. Bayan

An intelligent concierge agent for investor guidance.

A generative AI-based investor-facing concierge providing instant, accurate information on funds

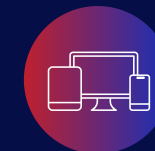

Instant responses on NAVs, performance, mandates, fees, subscription/redemption processes, and documentation

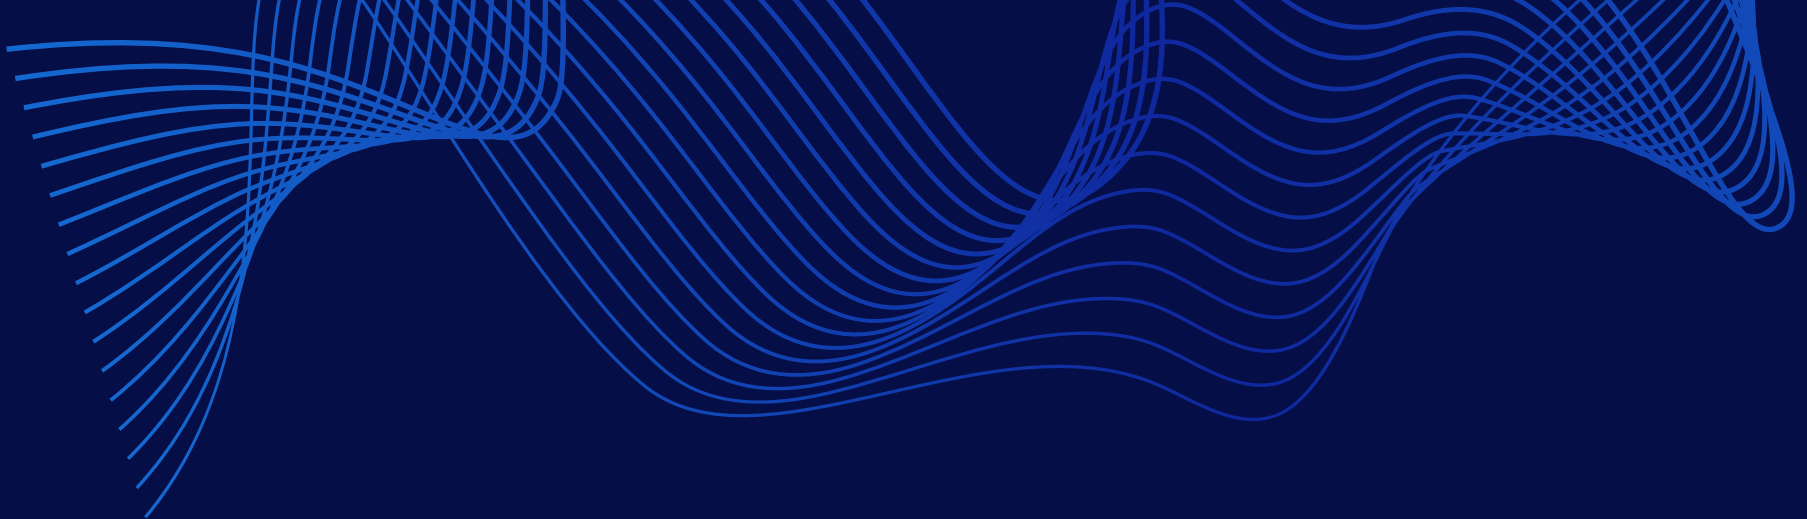

Interact via voice, paragraph input, or typing

Auto-extracts details from unstructured input with contextual help for complex terms

Deployable across websites, mobile apps, and WhatsApp

Application Development & Software Solutions

Custom software development

SaaS platforms

Web & mobile apps

Enterprise systems

DevOps & cloud deployment

01

Mahsumaah Moto is a digital platform designed to modernize motorcycle workshop operations.

2025

The system helps workshops manage service orders, inspections, inventory, and customer records through a centralized dashboard.

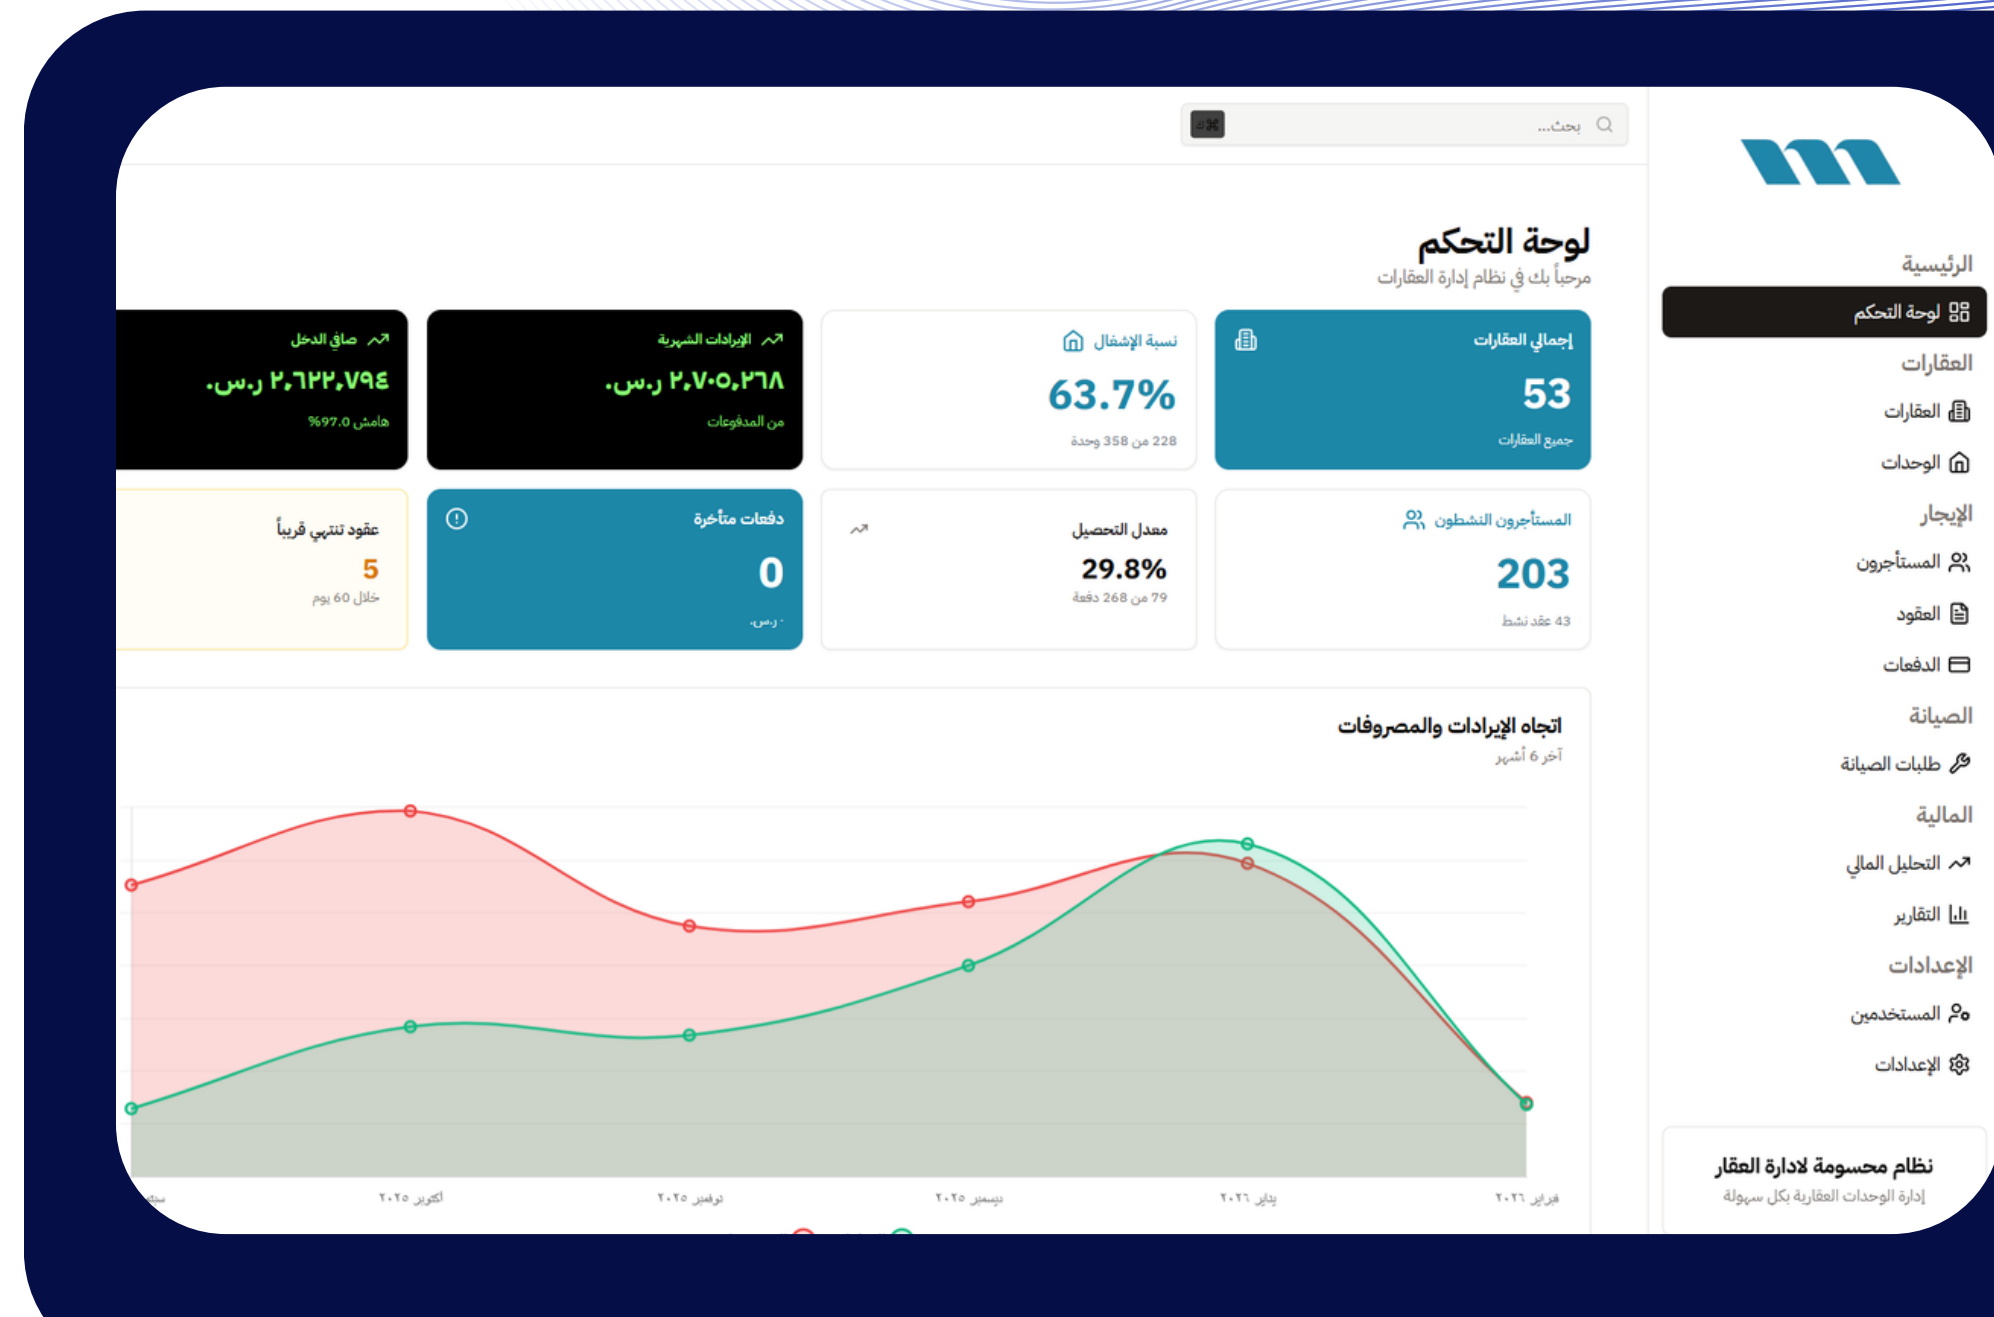

Aqar

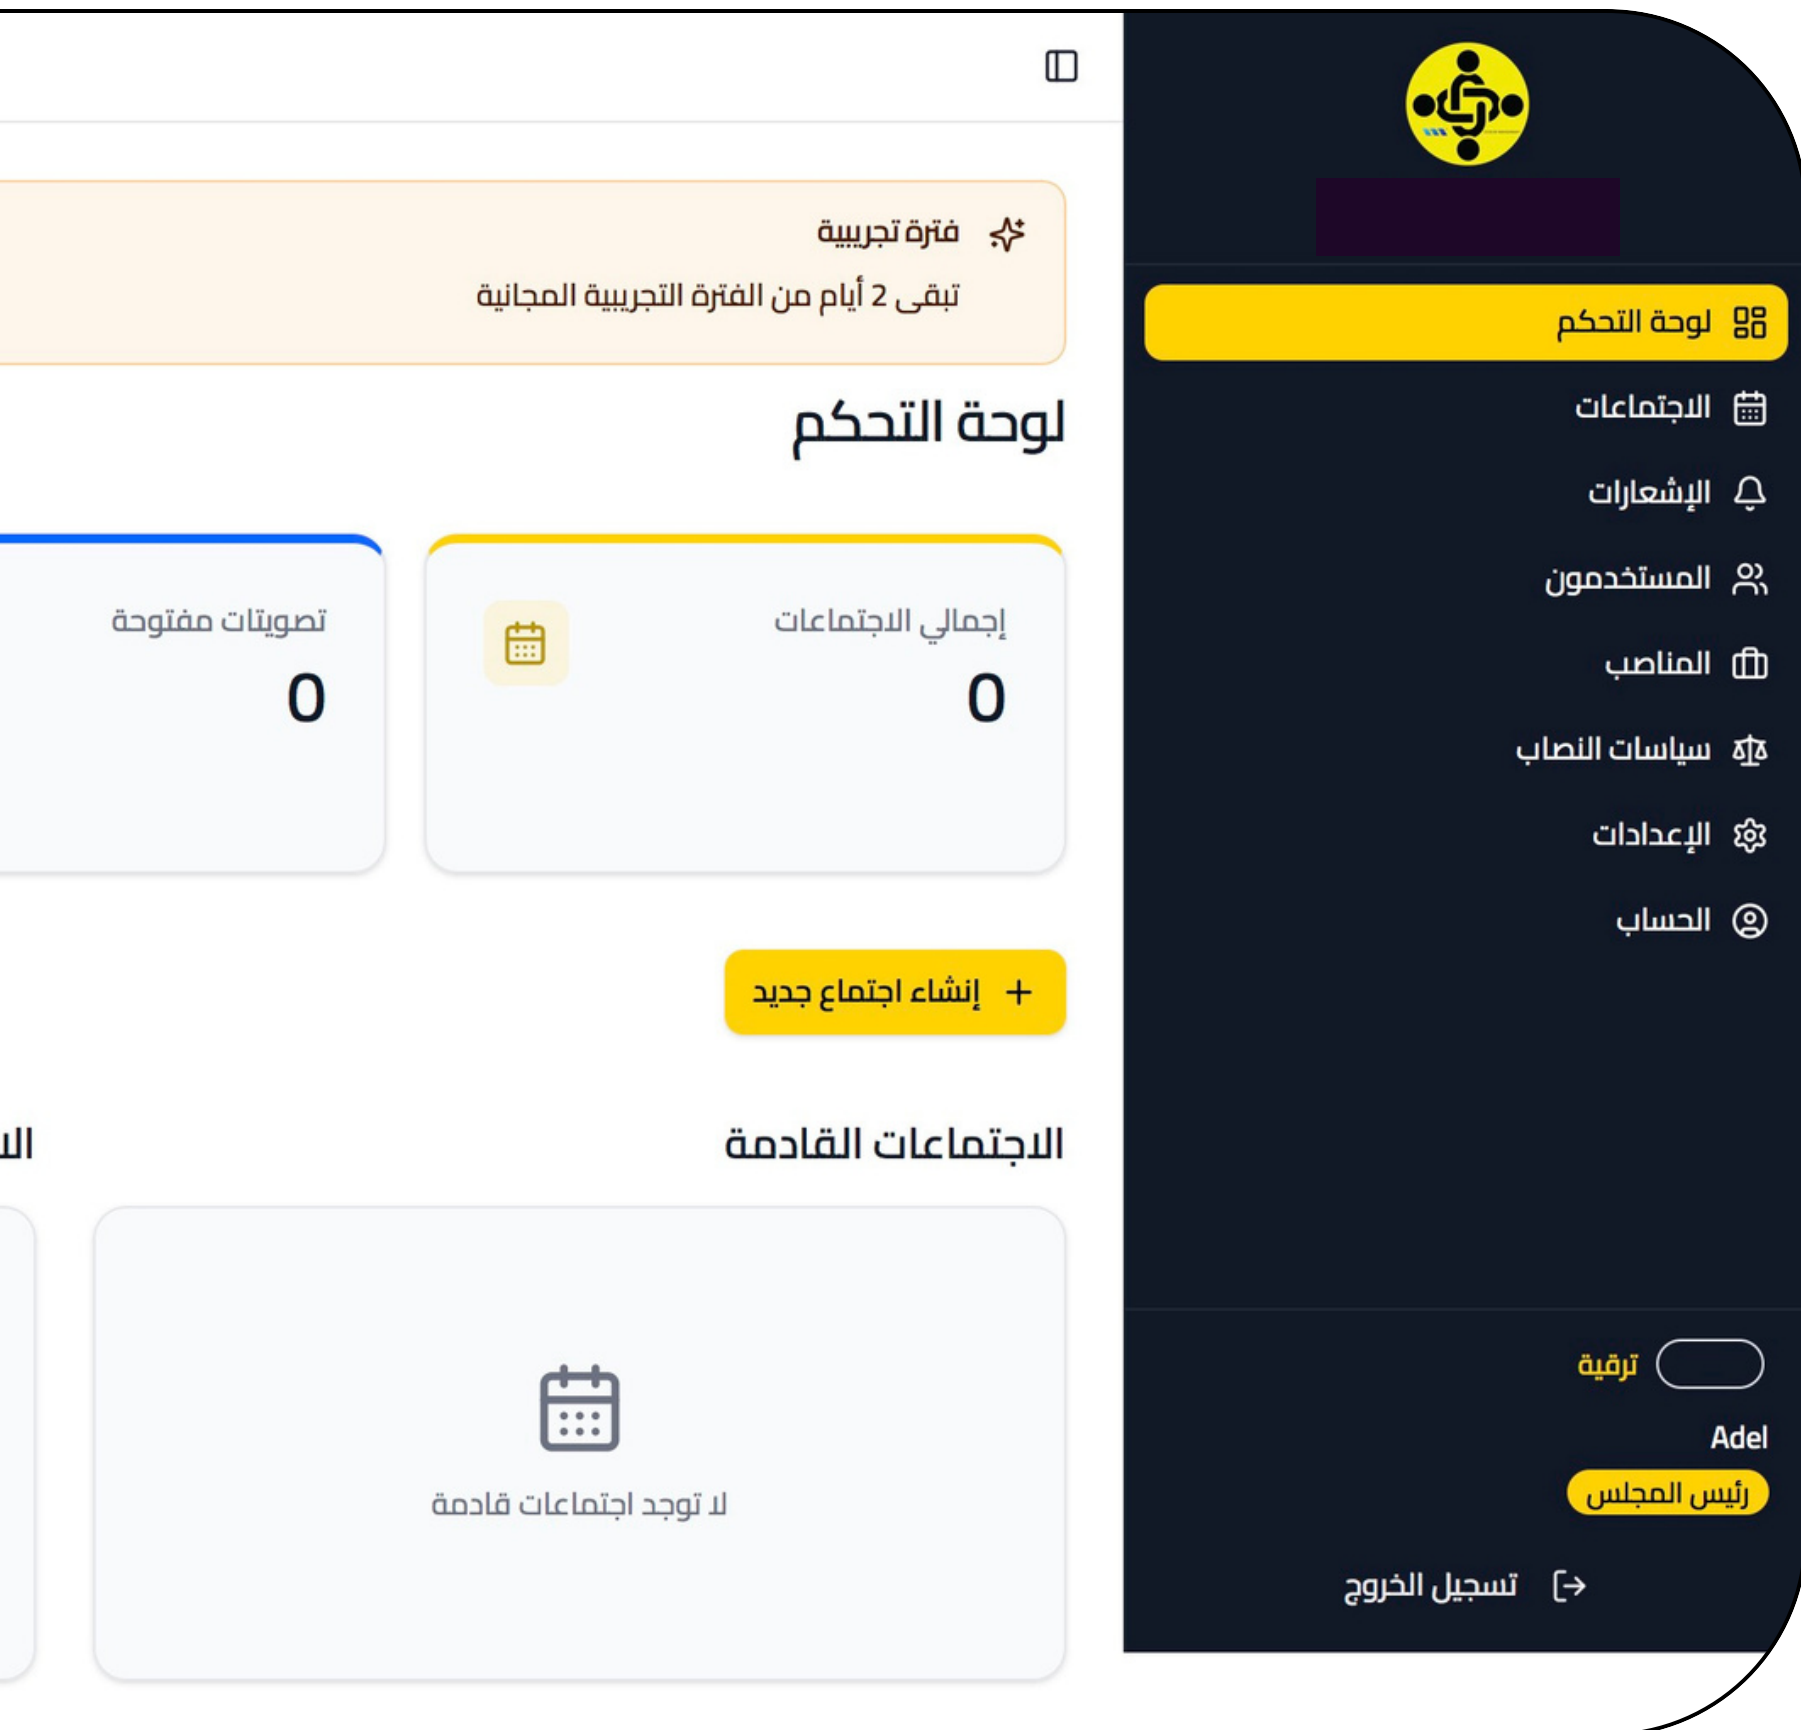

02

Mahsumaah Aqar is a digital platform designed to simplify property management and real estate operations.

The system enables property owners and managers to manage properties, leases, tenants, and financial records through a centralized and secure dashboard.

2026

SYSTEM
COUNCIL & COMMITTEE OPERATING SYSTEM
by Mahsumaaah

03

CCOS is an advanced governance and meeting management platform designed to streamline board operations, executive committees, and organizational decision-making.

2025

The platform enables organizations to manage meetings, agendas, voting, approvals, resolutions, and official records through a secure centralized dashboard.

Industries We Serve

GOVERNMENT & PUBLIC SECTOR

Supporting digital transformation initiatives, secure infrastructure, and compliance-driven technology solutions.

ARTIFICIAL INTELLIGENCE

Enables organizations to adopt AI securely, responsibly, and at scale

FINANCIAL SERVICES & ENTERPRISES

Providing secure IT systems, cloud solutions, and advanced cybersecurity for regulated industries.

TECHNOLOGY, LOGISTICS & SMART INFRASTRUCTURE

Developing scalable software platforms, AI-driven systems, and secure digital ecosystems for modern businesses.

Mahsumah x DigiTrends

AI Transformation Partnership

Mahsumah, in partnership with DigiTrends, enables organizations to adopt AI securely, responsibly, and at scale.

The partnership combines Mahsumah's local technology, cybersecurity, and consulting strength with DigiTrends' AI implementation experience across fintech, enterprise automation, digital platforms, and intelligent agents.

DigiTrends is globally engaged in AI infrastructure dialogue through CEO Samad Saleem's contribution to **WIPO's Technical Exchange Network, under the United Nations (UN)**, strengthening its role as a trusted AI innovation partner.

Focus Areas

- AI Centre of Excellence
- On-premise and local LLM deployment
- Agentic and Generative AI solutions
- AI governance and policy frameworks
- Industry-specific AI use cases
- Secure production rollout

AI Centre of Excellence

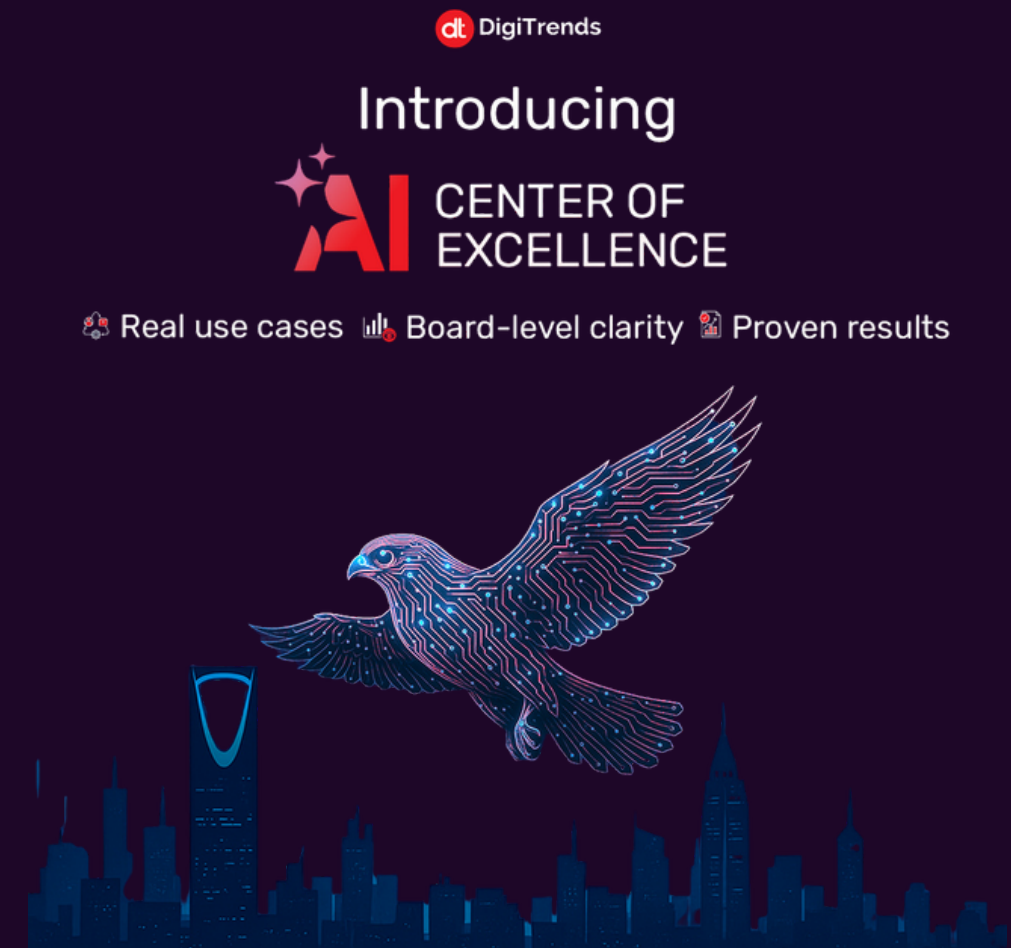

From AI Curiosity to Measurable Business Value

DigiTrends supports organizations in setting up an AI Centre of Excellence to identify, validate, and scale AI initiatives in a structured way.

What We Deliver

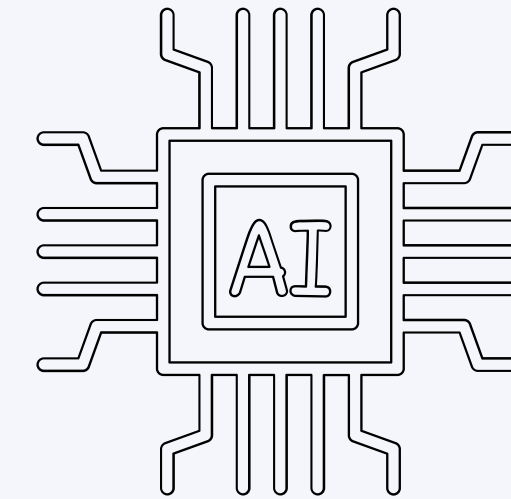

- AI strategy workshops
- Use case discovery and prioritization
- AI sandbox for controlled PoCs
- Business and technical feasibility mapping
- Governance and risk framework
- Production roadmap

A practical AI adoption model that helps leadership move from experimentation to measurable transformation.

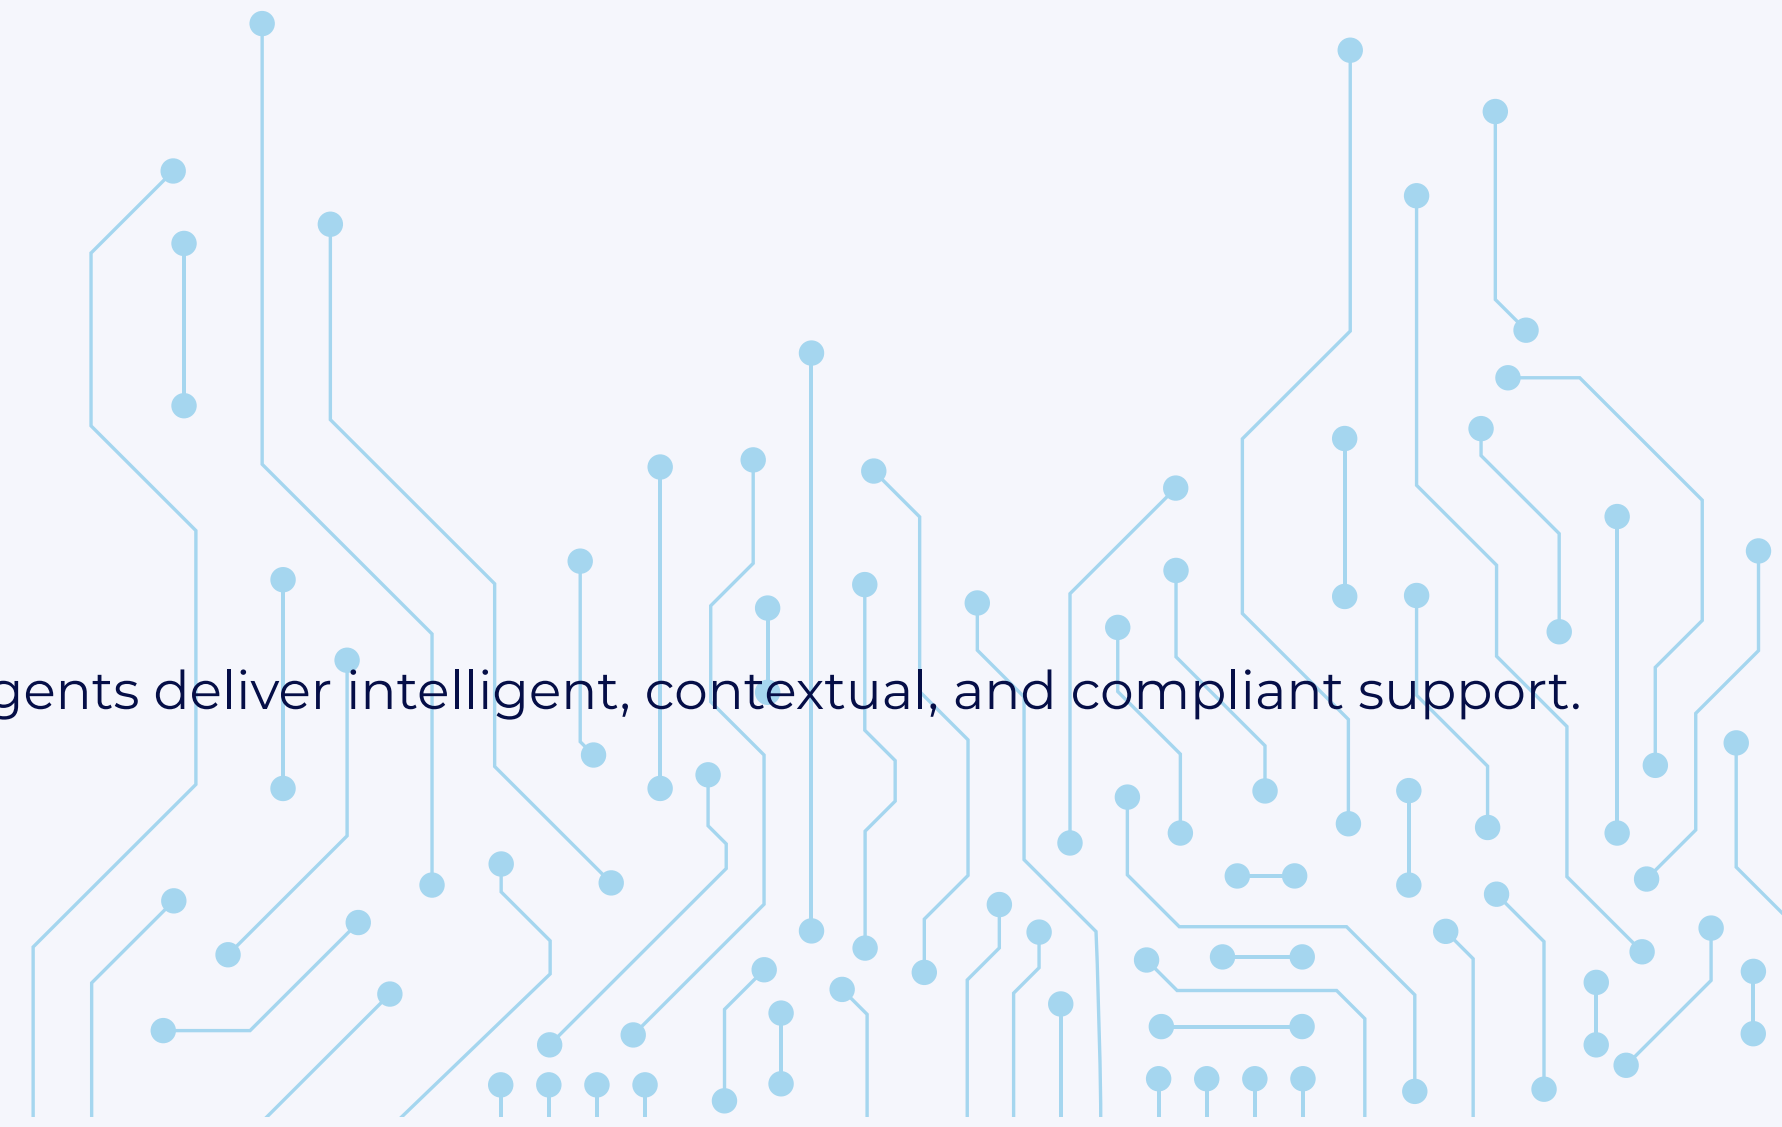

On-Prem & Local AI Deployment in the Kingdom of Saudi Arabia

DigiTrends helps organizations deploy AI in secure environments where data privacy, control, and compliance are critical.

- Deployment Capabilities
- On-premise AI architecture
- Private cloud deployment
- Local LLM infrastructure
- Secure API gateway
- Controlled data transfer
- Internal knowledge base integration
- Data sovereignty and access control

Sensitive business data remains within the organization while AI agents deliver intelligent, contextual, and compliant support.

Our Agentic and Generative AI Use Cases

Practical PoCs Built for Business Impact

DigiTrends has developed multiple AI PoCs that help organizations test real business value before full-scale implementation.

Serving the Core

- Agentic AI and Generative AI capabilities
- Proofs of concept (PoCs)
- AI policy, governance, and adoption frameworks

Bayan: Investor concierge for fund, NAV, fee, process, and documentation queries

Thimar: Portfolio assistant for personalized insights and proactive performance alerts

Muwafiq: Compliance agent for regulatory guidance and policy interpretation

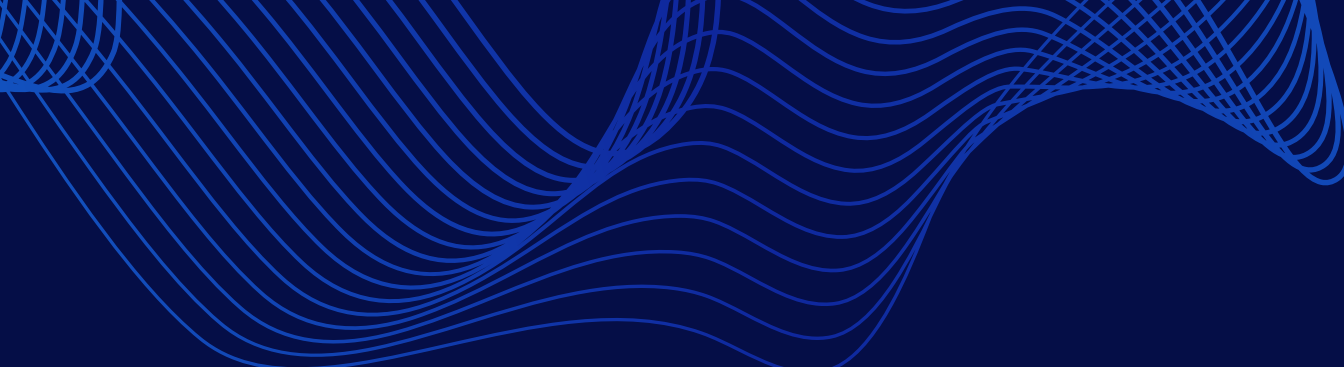

Mizar: NAV and fund valuation agent for fund calculations and operational accuracy

DigiSights:

Private knowledge AI for secure enterprise document search and insights

Raqeem: Accounts payable agent for invoice validation, compliance, and routing

Mudabbir: Billing and invoice agent for fee capture, approvals, and payment tracking

AI Policy & Governance Framework

Responsible AI Adoption for Enterprises

DigiTrends helps organizations define the policies, controls, and governance structures required for responsible AI adoption.

Framework Areas

- AI usage policy
- Data privacy and security controls
- Human approval workflows
- Risk classification of AI use cases
- Model access and user permissions
- Auditability and monitoring
- Regulatory alignment
- Responsible AI guidelines

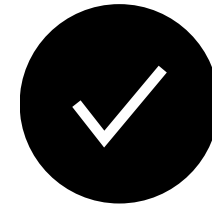

Organizations can adopt AI with confidence, control, and measurable accountability.

AI Governance

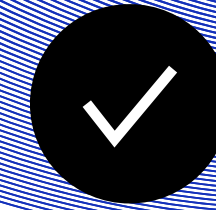

Our Approach

We follow a structured, security-first approach to design, implement, and scale modern technology solutions that align with organizational goals and regulatory requirements.

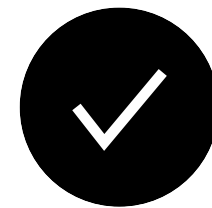

Assessment

We analyze business needs, existing systems, and regulatory requirements to define the right technology strategy.

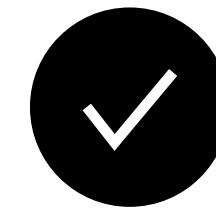

Architecture & Design

We design secure and scalable architectures integrating cloud, AI, and cybersecurity best practices.

Optimization & Support

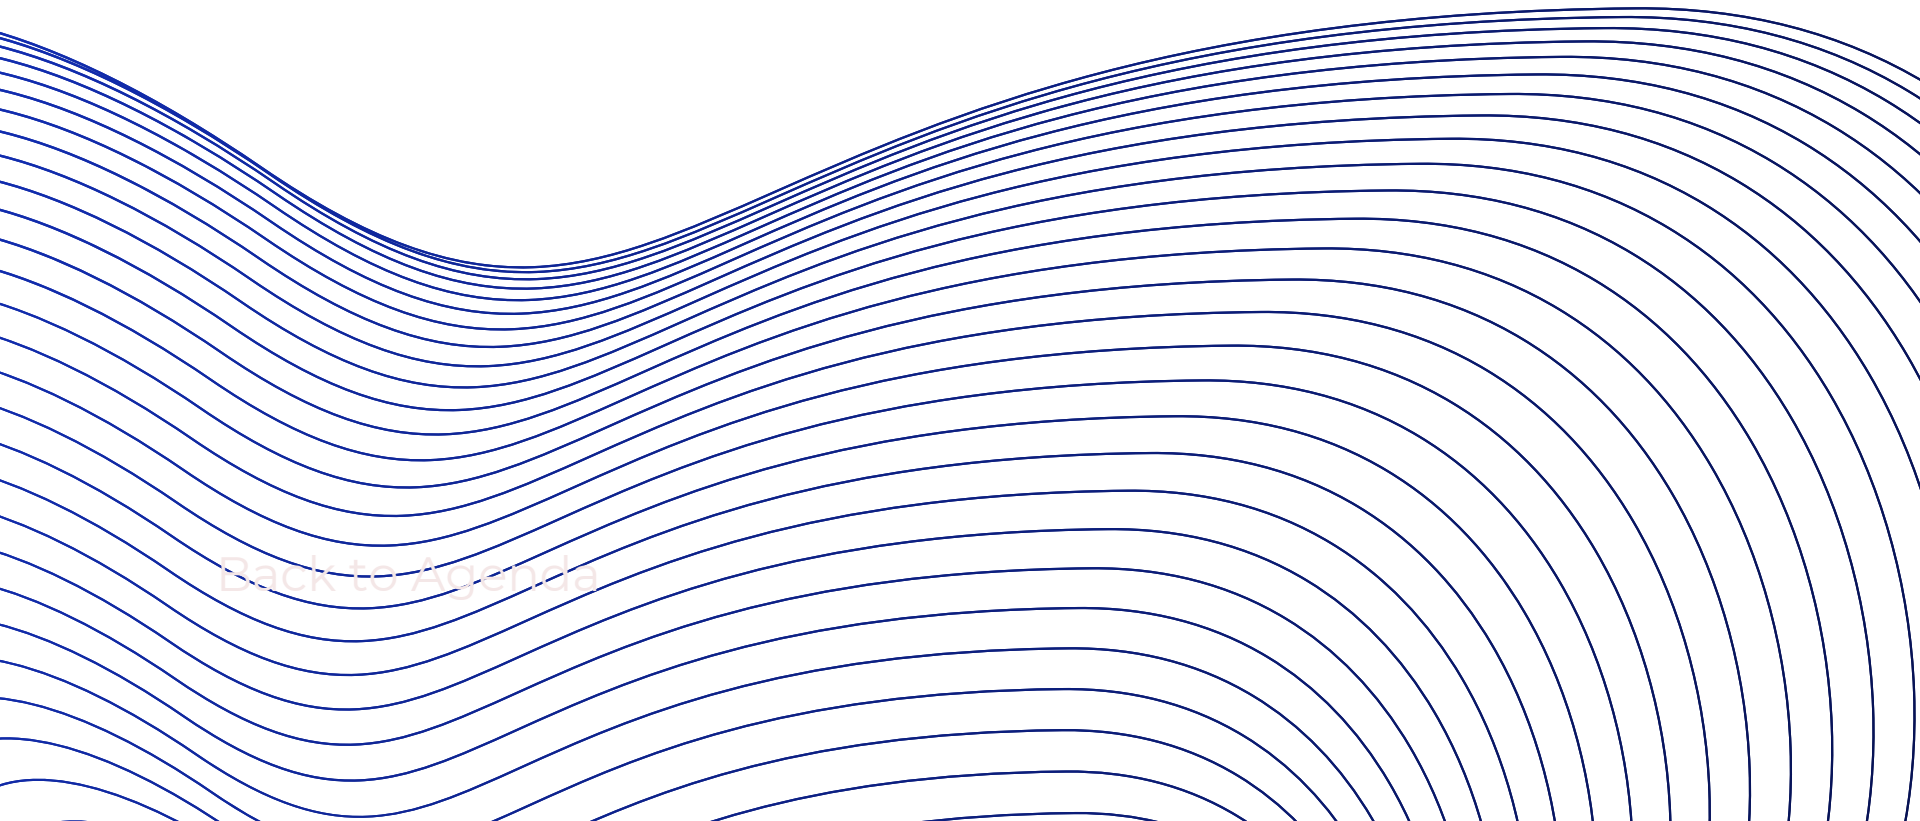

We continuously monitor, improve, and support systems to ensure performance, security, and long-term scalability.

Implementation

Our team develops and deploys reliable software platforms and IT infrastructure tailored to operational needs.

Why Choose Us

We combine deep technical expertise with a strong focus on security, compliance, and scalable digital solutions to help organizations transform with confidence.

01

Regulation-First Approach

Our solutions are designed to meet strict regulatory standards, ensuring security, compliance, and long-term operational stability.

02

Scalable & Secure Solutions

Our platforms are built for reliability, scalability, and performance, supporting organizations as they grow and evolve.

03

Trusted Strategic Partner

We work closely with our clients to deliver tailored solutions that create measurable business impact.

[Back to Agenda](#)

National Alignment

Supporting the Kingdom's strategy to build a diversified, technology-driven economy through digital transformation and innovation.

Ensuring systems follow national cybersecurity controls, data protection standards, and secure infrastructure practices.

Contributing to the adoption of artificial intelligence, automation, and advanced software platforms across industries.

Vision 2030

**National Cybersecurity
Authority (NCA)**

**AI & Digital Economy
Initiative**
